SKILLS

Languages and Databases: Python , SQL

A/B testing & Experimentation

Frameworks and Libraries: Pandas , Numpy, SciPy, NLTK, Scikit-learn, Matplotlib, Seaborn

Statistical and Visualization: Tableau , MS Excel

CERTIFICATIONS

Codecademy : Data Analyst

Udemy : The Business Intelligence Analyst Course

Datacamp : Creating Dashbaords in Tableau

EDUCATION

MBA
Business
Shri Venkateshwara University
📅 2018 - 2020

Bachelor of Commerce
N A S College
📅 2015 - 2018

CAREER OBJECTIVE

Prospective data analyst who strives to pose and answer questions with quantitative-driven insights through development of personal projects. I have learned the importance of having an iterative, hypothesis-oriented approach to analysis.

PROJECTS

Exploratory Data Analysis

- Built 3 Exploratory Data Analysis projects on examination, Steampowerd.com & goodreads.com datasets.
- Analyzed several statistical methods like central tendency and association between variables and Hypothesis Testing.
- Used pandas & Numpy libraries for cleaning and manipulation of the data.
- Utilized SciPy for Hypothesis Testing and Matplotlib library for Visual representation of statistical models like correlation.
